

Muhammad Sharjeel

Full-stack Developer | JavaScript Engineer | UX Engineer

EXPERIENCE

Chaos Corporation — Full-stack Mobile Developer

APRIL 2023 - PRESENT

- Currently creating and crafting a scalable and robust React Native application to help users take assessments and generate Skill IQ results at a blazing fast speed and best user experience.
- Research new technologies, identify and learn best practice, adapt quickly and provide technical guidance to other team members, Set and enforce best software development practices.
- Assisted with the transition from a waterfall method to the more efficient Agile methodology.
- Leveraging responsive frameworks to complete deliverables ahead of schedule.
- I contributed and led teams responsible for building new products for the company and its clients. I was assigned some interns to mentor for over 5 months in web & mobile development and they emerged great and contributed to the company's products.

Tools/Technologies - Typescript, React Native, Nodejs, PostgreSQL, Redux-Toolkit, security on both-sides (JWT, RSA, CORS, CSRF).

Agridunya Technologies — Senior React Native Engineer

OCTOBER 2022 - APRIL 2023

- I lead the re-development of the company's major product, Agridunya app etc.
- Migrating the Agridunya E-commerce mobile app from expo to react native cli to enhance features.
- Enhanced app experience with deep linking and share links, push notifications for timely updates, and integrated Easypaisa Payment Method for seamless payments.
- These features collectively aimed at boosting sales, improving user engagement, and providing a seamless and enjoyable experience for app users.

Tools/Technologies - Javascript, React Native, Nodejs, MySQL, React Native Paper, Redux-Toolkit, Git.

Appicoders — React Native Engineer

AUGUST 2022 - OCTOBER 2022

- Building stable and maintainable codebases using React Native, Typescript and Javascript.
- Collaborating with designers to ensure designs were efficient and technically sound.
- Implement new features and improve existing ones, Building robust and performant new features in a Service Oriented Architecture (SOA), Profiling, and optimization of existing features, Support planning, and testing features.
- Published the mobile app on both Google Play Store and Apple App Store, ensuring it met the respective platform guidelines and requirements. Additionally, provided regular updates and bug fixes to continuously improve app performance, user satisfaction, and compatibility with the latest operating systems.

Tools/Technologies - Javascript, React Native, Native Base, Ionic, Typescript, UI design system (Story Book).

Livestock Smart (Private) Ltd — Full-stack Mobile App Developer

DECEMBER 2021 - AUGUST 2022

- Revamped the web and mobile app user interface based on mockups.
- Developed backend API and seamlessly integrated it into React Native frontend.
- Designed and implemented a user-friendly form for smooth data input and submission.
- Published frontend build of the mobile app on Google Play Store, following store guidelines.
- Deployed updated server code to the cloud using WinSCP and Putty for secure file transfer.
- Successfully restarted the server after deploying backend code, ensuring proper functionality.

Tools/Technologies - Javascript, Angular, React Native, Nodejs, MongoDB, Git, Webpack, Redis.

SUMMARY

Full-stack developer and Javascript engineer with over 2+ years of experience, Delivering engaging and visually compelling applications with user-friendly interactions that drive business growth and improve UX.
